A Shift That Doesn't Ask

There was a time when everything moved inward.
Quietly. Deeply. Without needing to be seen.

This is not that time.

Something shifts when you meet another presence
and it doesn't interrupt you, it expands you.

Not by force.

Not by definition.

Only by resonance.

Each moment becomes unstable in a different way.
Lighter. Brighter. Riskier. More alive.

You don't hold it.

You don't control it.

You move inside it.

This is not a story.

It is a sequence of states
that only exist when shared.

Wood

Fire

Earth

Air

Water

I Didn't Mean To Smile

Unexpected, it happens before you understand it

You weren't saying anything
Just walking next to me
Same street, same morning light
But something felt easy

I caught my face in a window
Didn't recognise that while

I didn't mean to smile
Didn't plan to stay awhile
Something shifted quietly
Like the sun moved just a mile

I didn't mean to smile
It just happened for a while
No big words, no big scene
Just you... and something green

You laughed about nothing
And I laughed too
Not because it was funny
Just because it was you

I felt my shoulders drop
Like they'd been waiting all day

Maybe nothing changed
Maybe everything did
You didn't move the world
You just moved my sky

I didn't mean to smile
Didn't see it coming on
Something in me grew
While we were moving on

I didn't mean to smile
Didn't see it coming on
Something in me grew
While we were moving on

Almost Touching

Ignition, the distance is already breaking

We stopped talking
But nothing broke
Something shifted
In the air we hold

You don't move
But I feel it now
Like the room is bending
Just a little down

Almost touching, we don't move
Something pulling me to you
No space left in between
Almost touching in the scene

No step forward, still too close
Feel your breath before you know
No big moment, no surprise
Just your silence in my mind

We don't push it, we just stay
Something's building anyway

Almost touching, we don't move
Something pulling me to you
No space left in between
Almost touching in the scene

Don't say anything, just stay

Safe To Fall

Ground, losing control becomes a form of trust

Don't say anything
Just stay
I can feel it
In the way

Everything slows
When you're close
Like I'm letting go
Of control

I'm safe to fall
Right here with you
Nothing to hold
Nothing to prove

I lose myself
But not too far
You feel like home
Just where you are

No more distance
No more lines
Just your breathing
Next to mine

I'm not fading
I'm still here
Just dissolving
Without fear

I'm safe to fall
Right here with you
Nothing to hold
Nothing to prove

I lose myself
But not too far
You feel like home
Just where you are

Stay right here
Don't let go

We Breathe Wider

Open, something in you makes space for more

I can feel it
In the air
Something opening
Everywhere

Not the same now
As we were
We don't hold on
Like we were

No more edges
No more lines
Just the space
We let inside

We breathe wider
You and I
Nothing pulling
Nothing tight
We're not falling
We just rise
In a space
We don't define

No more silence
We need to break
Every moment
We can take

You're not closer
You're just here
And it all feels
Crystal clear

No more edges
No more lines
Just the space
We let inside

We breathe wider
You and I
Nothing pulling
Nothing tight
We're not falling
We just rise
In a space
We don't define

Just breathe
With me

Where We Melt

Flow, there is no edge left to hold

No more holding
No more lines
Everything just
Redefines

You don't end here
I don't start
We keep moving
Through the dark

Where we melt
You and I
No more edges
Left to find

Still together
Still the same
Just dissolving
In the frame

Stay like this
No need to hold

Nothing breaking
Nothing gone
Just a softer
Way to go on

I can feel you
Everywhere
Not just close now
But in the air

Where we melt
You and I
No more edges
Left to find

Still together
Still the same
Just dissolving
In the frame

Stay like this
No need to hold
